

## Advice on insertion of the sealing closures for EasyKEG

<p><b>Storage closure:</b> Store in a dry, cool place +10 to +30°C (+50 to +86°F)</p>	
<p><b>Disinfection closure:</b> The closures should be disinfected with the recommended disinfectants (dip):</p> <ul style="list-style-type: none"> <li>• 0,3% peracetic acid</li> </ul> <p>Please check other disinfectants regarding compatibility and processing.</p>	
<p><b>Insertion process closure:</b> Insert closure straight into the filling hole. Push in closure deep enough to allow the sealing contour to snap in completely below the sealing rim of the PartyKEG.</p>	
<p><b>Exact positioning of the stamp:</b> PartyKEG classic      X = 238 mm PartyKEG extreme      X = 240 mm</p> <p>Concentricity from the PartyKEG to closing stamp max. 1mm.</p> <p>The stamp according to the drawing provided by the HUBER Packaging Group has to be used.</p>	
<p>Recommended pneumatic cylinder: Ø63 mm; Operating pressure min. 5,5 bar</p> <p>Periodic sampling of inserted closures by cut open the PartyKEGs is advisable.</p> <p>By heed of these instructions a secure sealing will be guaranteed.</p>
